Beautiful edge-to-edge glass design

Flexible with tilt, pivot, swivel and height adjustable features

USB 3.0 charging port charges BC 1.2 compatible handheld devices and powers USB devices

Reliable with Premium Panel Guarantee and Advanced Exchange Service

The most detail you've ever seen on a monitor screen

Enjoy extreme clarity and extraordinary sharpness on a 5K monitor.

The Dell UltraSharp 27 Ultra HD 5K Monitor — UP2715K features an astoundingly vivid 5120 x 2880 resolution. That's a dramatic increase in screen clarity, with more than 14 million pixels — or four times the content of QHD resolution, seven times the content of Full HD monitors, and almost double the number of pixels in an Ultra HD 4K monitor.

The result is a breakthrough visual experience that brings outstanding realism, depth and crispness to pictures and movies.

Consistent, accurate colors

Right out of the box, Dell PremierColor delivers factory-tuned 99% AdobeRGB and 100% sRGB coverage, impressive grayscale tracking and a color calibration factory report certifying that colors are true-to-life and accurate with an extremely small deltaE of less than 2.

Excellent color depth and color gamut

Enjoy a large range of colors and color details with a wide color gamut. High capacity 12-bit internal processing enables up to 1.07 billion colors, distinguishing low grayscale tones and enabling a tremendous level of detail, even in dark areas

Design and edit to perfection

If you are a graphics or design professional in the entertainment, film, photography, or engineering field, you'll immediately recognize the benefits of a 5K monitor with PremierColor. Details this incredible allow you to view your work with a whole new level of insight.

Customize and calibrate colors with precision

With Dell PremierColor, you can use Custom Color mode to change color parameters to your exact needs. Tune and tweak onscreen colors by utilizing a wide range of color parameters such as RGBCMY saturation, RGBCMY hue, RGB gain and RGB offset.

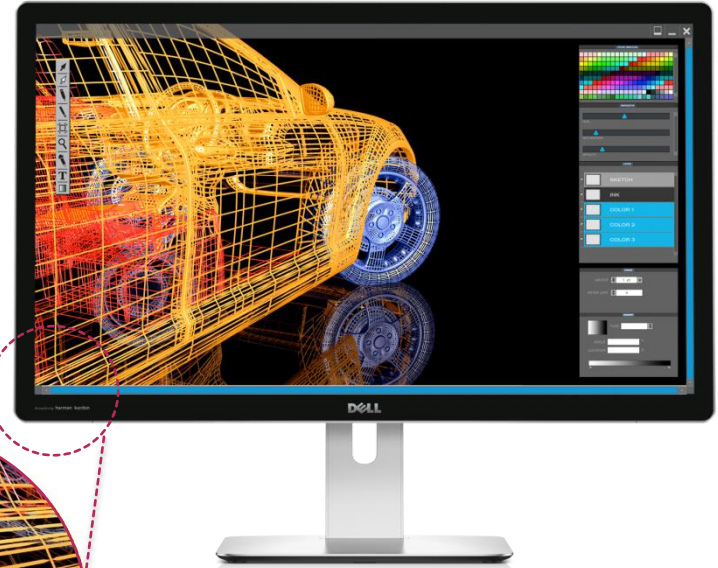

For even greater control and precise calibration, the UP2715K comes with a 12-bit user-accessible 3D LUT (look up table), which is accessible via the Dell UltraSharp Color Calibration Solution software when used with the optional X-Rite iDisplay Pro colorimeter.

Clear views and crystal clear sound

Extraordinary clarity of an edge-to-edge monitor combines with high-power, high-end stereo speakers for an immersive audio and visual experience.

Improved clarity and easy cleaning

Optical bonding and an anti-reflective coating eliminate reflection from two surfaces — the LCD panel itself and the protective glass layer in front of it — allowing more light to be transmitted and dramatically improving clarity, vividness and contrast. An anti-smudge coating allows you to easily clean your monitor.

High-fidelity Harman Kardon® sound

Two down-firing speakers tuned to perfection by Harman Kardon® and rated at an impressive 32W provide a beautiful soundscape.

Connect seamlessly with PCs, along with a wide range of digital peripherals. One high current USB 3.0 port found on the back of the monitor supplies twice the power for charging and powering BC 1.2 compatible USB devices.

Superb usability

Take in the fine, almost infinite details on the Dell UltraSharp 27 Ultra HD 5K Monitor — UP2715K in total comfort, thanks to its wide-ranging adjustability.

The included stand enables tilt, swivel and height adjustments, along with pivot capability.

You can wall mount the UP2715K monitor panel in your choice of landscape or portrait orientation.

You also get one upstream USB 3.0 port and five downstream USB 3.0 ports, two DisplayPorts (for 5K support), a mini-DisplayPort (for 4K support) and a media card reader.

Reliable and eco-efficient

The Dell UltraSharp 27 Ultra HD 5K Monitor — UP2715K meets the latest regulatory and environmental standards.

Always reliable

Dell's Premium Panel Guarantee offers a free panel exchange in the event that you discover even one bright pixel during the Limited Hardware Warranty period.

Dell's 3-year Advanced Exchange Service offers you peace of mind and quality you can count on with a replacement unit shipped to you the next business day, minimizing your downtime.

Eco-efficient

Made with eco-friendly materials, the Dell UltraSharp 27 Ultra HD 5K Monitor is BFR/PVC-free (excluding external cables) and has an arsenic-free glass and mercury-free LED panel.

Meet the latest environmental standards

Rest assured that the UP2715K meets the environmental and regulatory needs that businesses require, such as ENERGY STAR®, EPEAT® Gold and TCO Certified Displays.
